Name: _____

Date: _____

# Right Hand Turns

Cassidy is visiting New York City in the middle of a road trip, and he notices that all the streets are in a grid running North-South and East-West. He is four blocks east of Times Square and two blocks south. He wants to get to Times Square, but the steering on his car is defective and he can only make right-hand turns, and he is currently heading north. How can Cassidy get to Times Square?
