## 3x5 and 2x4 Plates

You have two Lego plates; one is a $3 \times 5$ plate and one is a $2 \times 4$ plate. You start with the $3 \times 5$ plate flat on the table in front of you. How many different ways can you position the $2 \times 4$ plate on top of the $3 \times 5$ plate, so it is connected by at least one stud?

Show your work, and write your answer in a complete sentence.
